TOTAL POND SUMMARY (2006 DOLLARS)					\$4,245,000

Notes:

1. Planning level costs based on the data from the 1994 Plan and assuming 3.5 percent inflation over 12 years. The numbers were then rounded to the next highest \$5,000 value.
2. Cost estimates do not include land acquisition costs which can be a major additional cost in the implementation of the pond systems.
