

Minimum thickness of precast base slab is 6" for 14' depth or less and increases to a minimum slab thickness of 8" at depths greater than 14' or if the structure is larger than 48" diameter.

NOTE:

1. All dog houses shall be grouted both inside and outside of the structure.
2. When the manhole or catch basin structure is constructed outside of the traveled roadway a witness post and sign (MH) shall be installed next to the MH.
3. If a sump MH is required, a minimum sump depth of 4' shall be constructed below the lowest pipe invert in the structure.
