Q4 Do you have other comments, ideas, or concerns with regards to the park?

Answered: 153 Skipped: 370

#	RESPONSES	DATE
1	I like the emphasis on user experience as long as there is oversight on the part of the city to ensure habitats are preserved and litter is disposed of throughout the new park.	8/31/2019 12:14 PM
2	We all know this is some of the most valuable land and habitat in Chanhassen. We want it to get the jewel of our park system to enjoy while retaining wildlife respectfully. It also would be appropriate to build some sort of monument to Prince and his legacy.	8/31/2019 9:05 AM
3	Our city park system, as with the act establishing Yellowstone National Park, should be for the benefit and enjoyment of the people. Pave the trails for all users, provide multiple experiences for people of all ages, aggressively remove invasive species (buckthorne). An emphasis on user experiences will be consistent with long-term plans, our existing park system, and proportionate with cost and effort involved with obtaining this property. Thank you for the opportunity to provide comments.	8/31/2019 8:11 AM
4	Keep ALL trails unpaved now and into the future. Plow unpaved trails when 4" or more of snow so it's accessible year around. Put in a "Camel Hump" bridge (4' of clearance from high water mark to bottom of bridge) in at the creek connecting Ann and Lucy so that canoes and small fishing boats can more easily use both lakes for fishing, paddling, etc. (but don't want big speed boats going to Ann). Over all - keep the area "wild" as possible, meaning no big areas of mowed grass, etc. Also do some Native Prairie Flower plots where appropriate for the Bees and Butterflies and the other wildlife that'd benefit too.	8/31/2019 6:09 AM
5	The east side of Lake Ann/Lake Lucy are already "Emphasis on User Experience". It would be great if the new west-park focused on "Emphasis on Preservation". This approach would satisfy both camps of park users. However, first and foremost we must preserve sensitive habitat.	8/30/2019 4:39 AM
6	Put in another 1-2 big fishing docks.	8/30/2019 4:39 AM
7	I like the bridge idea on the little river connecting Lucy and Ann. I hope the bridge is high enough that canoes and kayaks can pass via water under bridge. Watercraft can get thru now went water is high and when local residence don't build up barriers, such as logs and branches to prevent watercraft access to Lucy. That has been an ongoing issue, which would hopefully be addressed, or prevented with bridge. Thank you for preserving this land for people, animals and the environment. This area is one of the best places in the TC, and a true gem.	8/30/2019 3:14 AM
8	I would expect that a project of this nature which is funded by tax dollars MUST be accessible to ALL people. Those folks with limited mobility deserve access to this park as much as any other able-bodied person. Have ADA requirements been considered in either proposal? It should be!	8/29/2019 7:38 PM
9	Chanhassen already has a high volume of paved lakes trails. A more natural environment with crushed lime trails or even single track hiking/biking is not available and in high demand. Plowing trails in winter is not necessary as there are already many options. A snowshoe or natural environment is only available at the arboretum or the mammoth trails which are on private property but heavily used.	8/29/2019 5:03 PM
10	Make it happen!	8/29/2019 5:03 PM
11	Thank you for doing this survey!	8/29/2019 11:11 AM
12	What about parking near path? Need/want access for all.	8/29/2019 8:29 AM

Lake Ann Input

8/29/2019 4:38 AM

13	Todd, thank you for asking for our feedback. We would love to see more walking and bike trails. It promotes healthy outdoor family activity and provides true quality of life. I feel like there are so many great bike trails in the surrounding areas yet we can't safely access any of them. We are essentially locked in by highway 7, can't get to Excelsior....and can't go further west (Waconia) due to Lake Minnewashta. I guess there might be routes for experienced bike riders but not families with young children. Research show that communities that provide walkability (or bike-ability) are in high demand. If Chanhassen is trying to create a vibrant downtown, projects like this would help!	
14	Would like to see the trails connect to the small path currently off of Lucy Ridge Lane near Lake Lucy Road. Would allow many more residents to enter this trail system easily and safely.	8/29/2019 2:33 AM
15	I am thrilled that the city gained this new park space. Thank you! Keeping the land as natural as possible while still allowing access for outdoor enthusiasts is something I would like to see happen. Thank you.	8/29/2019 1:39 AM
16	We want to see Lake ann same as lake calhoon.	8/28/2019 7:40 PM
17	Concerns with added traffic and trash management. Need to consider proper waste, including pet waste, management. Study should be included regarding additional traffic around a lake and it's impact to the lake.	8/28/2019 2:20 PM
18	Some things go without saying like preserving sensitive habitat. Right? And managing buckthorn and invasive species. To me, the biggest question is whether or not to pave the trails. I say yes in order to allow access to those whose needs so often get overlooked, not to mention parents with strollers. I just don't think trying to be exclusive or protective in the sense of trying to keep this a secret or exclude certain groups of people is the right way to go as a statement for a city to make.	8/28/2019 11:55 AM
19	The unspoiled, undeveloped land is a rare treasure. We do not need to jump into developing this space immediately, nor disrupt more of the animal habitat at the same time as the new neighborhood. If it is found that more permanent aspects are needed they can be added at a later time as the need arises.	8/28/2019 11:19 AM
20	A huge awesome crazy park for the kids!!! The park of all parks! Pavilions. Areas of attraction and activity.	8/28/2019 9:43 AM
21	The least amount of human disruption to the area as possible. Leave it as it is. Enough wildlife disruption is already happening in the area. No other lake access is necessary. Invasive plants need to be dealt with while conservation of natives is critical. There are enough bike trails so I hope this does not become another one.	8/28/2019 9:38 AM
22	Year round paved trail loop that can be accessed by stroller would be ideal. I strongly prefer the user experience option. Also, stop blocking access to the parking lot from Greenwood Shores. -	8/28/2019 8:56 AM
23	I love the idea of a trail all the way around lake. Keep natural if possible. Less upkeep/maintenance if keep trail unpaved? Love these ideas and look forward to biking and walking the trails. I live in Longacres neighborhood.	8/28/2019 5:52 AM
24	Chanhassen has a lot of playgrounds. I would love to see in nature play area (I.e. Lean-tos made with sticks, logs on ground for balancing or sitting, rocks for climbing, stumps for climbing, monkey fist swing, etc). Children and adults don't interact physically with the environment enough in this high-tech world and that would create an encouraging place to do so. Ideas could be gleaned from Lowry Nature Center, Richardson Nature Center, and Westmoreland Nature Play Area (Oregon), as well as searching "woodland play" on Pinterest. I would love to see no plastic in this area (how about large landscape rocks or benches made from tree stumps?) other than recycle and waste bins. Please go out of your way to preserve any mature trees during this process! Thank you!	8/28/2019 1:58 AM
25	First item to accomplish is to build a bridge across waterway that connects Ann and Lucy to access park	8/28/2019 1:48 AM
26	Build a bridge now.	8/28/2019 1:12 AM

Lake Ann Input

27	I think creating a small area dedicated to a natural playground would be a wonderful area here in the forested space. With so much acreage it would be easy to do and it would encourage use of the space but not off-trailed space. I would encourage the trails to not be paved so there is better water management, as well as not plowed in winter so there is a good space for snowshoeing!! Save your resources! Please do not spray these areas. The city has gotten extremely close to spraying the natural area off Kerber (basically into the steps). There is absolutely no reason anyone needs a "weed"-free area up to that natural preserve, as most of it is the side of a road, but also the areas kids roll around and enjoy, as well as animals. The pesticides run directly downhill into the water sources you are trying to preserve as well. We need to save our natural resources, as you are doing here! As well as save the financial resources of the city by not spending them on a frivolous expense. Thank you for what you are doing!!	8/27/2019 5:31 PM
28	Highly desire a BRIDGE over the small channel connection between Lake Ann and Lake Lucy HIGH ENOUGH such that kayaks and canoes will be able to pass under and between the lakes. This channel should be kept clear to allow kayak and canoe access to both lakes. If the bridge is not high enough then boaters might try to "portage" their boats around a low bridge and thereby destroy habitat. Design and build a bridge for free passage below.	8/27/2019 3:33 PM
29	Avoid concrete and any structure in the park space. Create a sense for moving through the area, allowing for bikes and pedestrians	8/27/2019 12:15 PM
30	Would like to see the entire loop around Lake Ann ASAP. I like the current hiking trails on the west through north side of Lake Ann.	8/27/2019 11:13 AM
31	Allow access for small watercraft i.e. canoes, kayaks, to pass between the lakes.	8/27/2019 8:59 AM
32	Consider additional users of Greenwood Shores Beach	8/27/2019 5:58 AM
33	Pave trail on main loop around the lake 1-2 more fishing piers Benches not necessary	8/27/2019 5:55 AM
34	Any bridge over the channel between Lakes Ann & Lucy needs to be high enough to provide clearance for kayaks/canoes.	8/27/2019 4:11 AM
35	Minimally invasive. No loop around Ann. Trails far from lake. Don't want to see people on the trails when on lake. Want lake to remain peaceful. Keep lake clean.	8/26/2019 3:45 PM
36	I would like a Trail under Galpin Rd to allow ease of Longacres residents to access Lake Ann.	8/26/2019 12:37 PM
37	Preserve as much peace & nature as possible.	8/26/2019 10:02 AM
38	Really enjoy round lake in EP with exercise areas, running, , water features, would love a small amphitheater	8/26/2019 7:22 AM
39	Please preserve the natural beauty and don't overdevelop.	8/26/2019 6:43 AM
40	Please limit concrete/pavement/asphalt to as little as necessary. Please leave as much untouched as possible. Please limit human intrusion to the smallest amount as possible.	8/26/2019 5:57 AM
41	Make it open to walk leashed dogs	8/26/2019 4:57 AM
42	Enable canoe/kayak passage between lakes.	8/26/2019 3:55 AM
43	Would really like to see a complete loop around lake ann.	8/24/2019 11:58 PM
44	Create passage under galpin to connect to trail head by the guard shack.	8/24/2019 3:27 PM
45	Being able to bike, walk and possibly cross country ski around the lake is ideal.	8/24/2019 1:28 PM
46	Add a parking area at Greenwood Shores beach/picnic area.	8/24/2019 8:32 AM
47	I would like to be able to kayak between lake Ann and Lake Lucy. But you don't have the little gap on the map where you can kayak through.	8/24/2019 3:24 AM
48	Make any bridge across the channel between Lake Lucy and Lake Ann high enough that kayaks can flow under.	8/24/2019 3:04 AM
49	I feel that we have many parks with an emphasis on user experience. It would be nice to have another variety with less pavement and more protection of the natural resources and informal nature observation.	8/23/2019 3:55 PM
50	It would be really nice to have a paved loop trail around Lake Ann and have it connected to Lake Susan/Rice Marsh Lake trail system	8/23/2019 2:19 PM

Lake Ann Input

51	There are so many dogs that walk the area. Put some dog bag stations out for people who don't pick up or forget a bag. Have a few areas where people can fish or sit on a bench and enjoy the lake.	8/23/2019 10:41 AM
52	Could a disc golf course be added? If not, how about a basket or two for practicing putts?	8/23/2019 8:39 AM
53	Thank you!	8/23/2019 2:42 AM
54	Keep up the good work. Thrilled the Prince property is finally a reality for a trail completely around Lake Ann.	8/23/2019 2:17 AM
55	I like the idea of having paved trails both for walking and biking. Eventually I would like to see the trail go all the way around Lake Ann	8/22/2019 5:13 PM
56	On most of the current path around Lake Ann you can't see the lake, just woods. The point of walking around a lake is to see the lake, otherwise you'd just go walk in the woods somewhere else. That can still be done in a way that preserves nature. Instead of paving (upkeep!) or crushed rock (easy to twist your ankle) I would suggest wood chips as are found in the new park trails at Fox Woods Preserve.	8/22/2019 3:20 PM
57	Take on aggressive boat monitoring like Henn. C. Did at lake Riley. Aggressively post no dogs in the lakes and explain the threat of polluting the lakes when dogs are peeing in them. Provide plenty of water fountains for human and dogs. Aggressively post dog laws. (I am a dog owner and never allow them in lakes)thanks!	8/22/2019 11:50 AM
58	This survey was very well put together. Thank you.	8/22/2019 6:52 AM
59	Love the idea of having a full circle paved path around Lake Ann so all residents can enjoy the lake year-round.	8/22/2019 5:18 AM
60	Connect the trail the older development to the south along Majestic Way so those neighborhoods have access. Increased traffic on Galpin will definitely affect the safety of going to Sugar Bush Park.	8/22/2019 4:07 AM
61	Please leave the space as natural as possible. We have the opportunity to preserve and enjoy the land without turning it into every other paved trail in the city's network. Less is more.	8/22/2019 3:38 AM
62	Leave in its natural state as much as possible.	8/22/2019 3:24 AM
63	Please keep focus on quiet recreation... hiking, biking, snowshoes, kayaks. We have plenty of kid rec opportunities in the city, lets use this space for nature lovers to enjoy in both winter and summer. Please keep the kayak channel accessible between the lakes.	8/21/2019 3:48 PM
64	sorry, I had to pick four !! -----this is just fabulous, keep it going --we have been waiting for years for this to happen especially a whole loop trail around one of our lovely lakes in Chan. !! Hope the trail has lake views all around. Thanks for all your hard work, so much appreciated !!	8/21/2019 1:10 PM
65	Love the idea of the continuous loop and accessibility from multiple entry points. Thank you!	8/21/2019 8:45 AM
66	Thank you for asking for input. I just dont like paved trails. I like the crushed gravel or bark for trail running. So glad you bargained for this space.	8/21/2019 8:13 AM
67	Feel very strongly that an archery range should be included in the plan to replace the lost range at Lake Susan.	8/21/2019 6:45 AM
68	It would be cool to have it be a groomed cross-country ski path in the winter	8/21/2019 6:02 AM
69	Outdoor amphitheater for concerts like they have at the Minnesota Zoo would be awesome!!! Dedicate it to Prince and celebrate his legacy!	8/21/2019 5:56 AM
70	Informational kiosks should also be incorporated in the design.	8/21/2019 5:11 AM
71	a 3/2 beer joint or restaurant on Lake Minnewashta - Thank YOu	8/21/2019 5:11 AM
72	Whatever the end result, this will be great for the residents of Chanhassen!	8/21/2019 3:39 AM
73	The arboretum is a great model in my mind. I don't know how it applies here, likely #2. Survey design - there were things I was indifferent too and forced to choose like / dislike skewing results. (eg I don't care about benches but I don't dislike so I chose like).	8/21/2019 3:02 AM
74	I love the idea of a continuous walking path around Lake Ann and think it will become a destination.	8/21/2019 2:23 AM
75	Keep up the great work	8/21/2019 1:49 AM

Lake Ann Input

76	I like the idea of the picture of cement blocks to cross the stream, low maintenance compared to a wood bridge. An unplowed crushed stone main trail around the lake is fine. The complete loop may not be completed for decades. Plowing the east side gives winter people a way to walk from Greenwood Shores to 78th Street.	8/21/2019 1:40 AM
77	Sorry, This was one of the poorer surveys I have taken. Too much only this or that. It does not request input but more like confirmation of one or the other concept. Appears that gravel with future paving is what is wanted to be the answer. I want cross country skiing somewhere in Chanhassen. So and option for groomed trails in the winter. Paved and gravel are both poor for skiing. Paved is the only surface good for wheelchairs as the citizens ages some of the less mobile people really like to get out. I would like to see the main trails further back from the lake and then secondary trails up to the lake for viewing somewhere between the two plans. Then the last question. Pick only three items. I would rather rate each item. Unimportant, little important, important, very important. I could check almost all of them.	8/20/2019 5:33 PM
78	Stop the housing development, and keep the nature safe.	8/20/2019 4:59 PM
79	In regards to the trails, would uncleared trails allow for cross country skiing and snowshoeing? If yes, that would be a top priority for me!	8/20/2019 4:48 PM
80	Create access trails from a number of different places	8/20/2019 3:53 PM
81	How about wildflower installations along shorelines, bluebird housing areas, American lotus lily locations, waterlily installations, blue heron/ egret rookeries, picnic areas, volleyball areas, recreation spaces, rain gardens, etc. Take time to think this through & invite community volunteers to start imagining something unique to Carver County. Remember the butterflies need food: milkweed, and maybe plants to attract hummingbirds. There should be a complete plan before any construction begins.	8/20/2019 3:40 PM
82	Leave primarily natural.	8/20/2019 3:20 PM
83	Would like to see safe passage from Longacres subdivision to access trails via under roadway tunnel.	8/20/2019 2:08 PM
84	Please preserve these precious spaces. With so much development in the surrounding area, it is critical to keep spaces untouched and natural. Thank you!	8/20/2019 1:39 PM
85	It would be great to bike, walk, and cross country ski	8/20/2019 1:33 PM
86	Have as much green space as possible	8/20/2019 1:05 PM
87	I love going for walks and runs in the Lake Ann Park! I would love more trails so I don't have to walk next to busy roads (Powers Blvd), as I do now..	8/20/2019 12:40 PM
88	Hope it goes through. Would be great.	8/20/2019 12:20 PM
89	It is a great area that I have run through often. Although I like the "rugged" appeal of what it is today, many more people would enjoy the area if enhanced in the manners I chose above. Thanks for asking for input.	8/20/2019 11:53 AM
90	Love these ideas. Could you please consider an off lease dog area that is fenced somewhere in this park?	8/20/2019 11:45 AM
91	Develop it so it is family friendly and also handicapped accessible.	8/20/2019 11:44 AM
92	It would be nice to have it so one could walk or bike completely around the lakes. I think it would be important to have refuse cans available for pet waste bags and garbage.	8/20/2019 11:36 AM
93	Keep disability accessible, but also as natural as possible while combatt invasive plants.	8/20/2019 11:27 AM
94	A running trail all of the way around would be great and a bike lane as well. More fishing spots would also be nice.	8/20/2019 11:20 AM
95	Thank you for this wonderful concept! I think, above all, we need to protect and preserve as much as possible of the "au natural". environment.....; encourage native growth of plants and animal habitat. The management of "groups" visiting is vital.....but not at the expense of the natural area.	8/20/2019 11:13 AM
96	I think it would be good to extend the same format of Lake Ann to the rest of the park. Paved trails, benches, beaches, docks, etc.	8/20/2019 11:10 AM
97	Gravel Paths for bikes, walking and cross country skiing in winter. Cleared spots on shoreline of lakes to possibly fish/wade in the water and access for Ice fish	8/20/2019 11:06 AM

Lake Ann Input

98	Thank you for doing this survey! More trails and access to them, the better. Allowing as many people the opportunity to exercise and enjoy nature the healthier and happier we will be. Paved trails allow the elderly safe walking paths, moms with strollers a smooth ride and runners/walkers an enjoyable path to exercise on.	8/20/2019 10:55 AM
99	Please make sure that most of the trees and forest coverage is maintained. Would be nice to have a path all the way around the lake but making it as natural as possible.	8/20/2019 10:51 AM
100	I am neutral on crushed rock trails. I am also neutral on clearing trails in winter. Seems like a big expense and hassle but I don't know for sure. Please keep as many large trees as possible.	8/20/2019 10:49 AM
101	Eventual loop would be awesome, in addition cleared trail for skate skiing or winter snow shoeing in winter. docks for fishing (lots of kids love fishing on lake Anne)!	8/20/2019 10:48 AM
102	I would us for birding and biking.	8/20/2019 10:47 AM
103	Have you considered adding single track bike trails in the wooded areas in addition to paved trails around the lake? Mountain biking is growing as a sport in this area and I'm sure the Chan /Chaska team would love some additional single track to practice on.	8/20/2019 10:47 AM
104	Bike friendly single track trail!	8/20/2019 10:44 AM
105	This is tough! As a person who utilizes this area a lot all year long, I can honestly say, it is one of the most beautiful places I walk! It's quiet and there is no better view than the changing maples in the fall (even though I have to hike through the stream to get there.) The most important thing to me would be to preserve the current habitat and landscape (I believe it is called an esker on the isthmus between the lakes.) The sloping hill where you can walk up high and see both lakes or down low and be closer to the Lake Ann shoreline. I appreciate the lack of snow removal on the current unofficial paths as it is a reminder of the seasons (boots in the spring and Yak-traks in the winter.)	8/20/2019 10:33 AM
106	I don't know what limit spaces to 1 trail corridor means. Everything else seems like amenities already available at other area parks I'd like to see the city add new unique amenities like nature playscapes, outdoor classrooms, hiking / x-country ski trails	8/20/2019 10:29 AM
107	The wildlife (turkeys, cayotes, deer..) that has been effected by the new housing development is seemingly displaced and making there way into residential neighborhood's near by (west 78th St and Galpin) and so I would like to see a park and trails developed in a less inasive way to allow the wildlife that resides in these areas to continue to thrive.	8/20/2019 10:25 AM
108	It would be nice to see things in the park that would attract kids and make them want to go there. maybe have rock climbing walls, mountain bike trail, a playground that is more natural with rope swings, tire swings, sandpits, and encourages kids to get dirty and play in nature - roll down hills etc. I think having wooden bridges like fish lake park in Plymouth and making it a spot where you want to go to take family photos and create memories	8/20/2019 10:23 AM
109	I would like to preserve some single track mountain bike trials that currently exist there.	8/20/2019 10:20 AM
110	Its a shame that you couldn't preserve all of the land instead of putting in a housing development. Please keep development to a minimum for the wildlife. We need more spaces for wildlife.	8/20/2019 10:17 AM
111	Lets do something different! We have plenty of paved trails, let keep this gravel and less of a highway and more of a nature feel. The trails can be closer to the trees and vegetation with not having them paved. I would not mind a few low maintenance walking trails if its doable as well.	8/20/2019 10:16 AM
112	Crushed stone trails may lead to more falls by Ooldr residents.	8/20/2019 10:15 AM
113	Trails for cross country skiing in winter same trails for mountain biking in summer.	8/20/2019 10:02 AM
114	Like the idea of vistas/benches along the trail that provide sight lines to the bodies of water to which the trail is adjacent.	8/20/2019 10:02 AM
115	What are the plans to handle bikes on the trails? Would be nice to have a space for outdoor education/demonstrations. Can Chanhassen work out a discount for residents for the Minnewashta Park?	8/20/2019 9:51 AM
116	Trails for walking/biking and easy access would be nice	8/20/2019 9:31 AM

Lake Ann Input

117	How about just leave it alone as is? It's beautiful and more human access is only going to cause for crowding and taking away from the small lake vibe it has now. Lake Ann is a small lake- we don't need more access points or more trails. This isn't lake Calhoun. Let's not pretend this lake can handle that much traffic. It's already too busy with us that live near it as is. Opening up to the new neighborhoods is going to rob everyone of that "get away" feeling we have by it being an all natural small lake.	8/20/2019 9:27 AM
118	There is entirely too much goose droppings there.	8/17/2019 5:59 PM
119	It would be nice if there was a better way to run into the park. Right now you need to run directly on the road and cut through parking lots. Easier access from the surrounding neighborhoods would be both safer and nicer.	8/17/2019 4:33 PM
120	No	8/16/2019 6:43 AM
121	I think the space should remain as natural as possible. One of the draws to this space is that it is natural/undeveloped, there are very few beaches and parks like this in the metro.	8/15/2019 3:50 PM
122	As a person that lives in Greenwood Shores I dislike the imprint you are even thinking of. I know many of the neighbors feel this way, preserve the beautiful space and don't commercialize it into something else. That is what the neighboring parks like Minnewashta are for.	8/15/2019 6:43 AM
123	Generally, less landscaped and more natural. I'm excited for a Trail all the way around the lake, and support one main paved trail (for easier access for strollers and wheelchairs, etc) and stone or mulch trails for additional exploring.	8/15/2019 2:40 AM
124	A small nature education 'cabin' added somewhere on the trail (similar to Behren's cabin at the Arboretum) would be a wonderful addition. Photos and small plaques can briefly explain some history of the area and what flora and fauna is observable on the trails. It would help all ages to take greater advantage of the trails and have a deeper appreciation of the area. LOVE the boardwalks in the proposal!	8/15/2019 2:12 AM
125	Sounds beautiful, wonderment around a safe space at lake for pups to swim. Currently have to leave our city to do that. So... would imagine I would stay here instead.	8/14/2019 1:47 PM
126	If closed in winter, consider leaving open to cross country skis and/or snowshoe use	8/14/2019 3:35 AM
127	A large natural buffer is the best thing for Lake Ann. As much as possible, keep the shoreline looking wild when viewing from the other side of the lake. Please keep trails natural in the winter. This area would be beautiful for snowshoeing or cross country skiing. Thank you.	8/11/2019 3:06 PM
128	I support any proposal that keeps the land as natural as possible, minus the buckthorn. Allowing dogs off-leash away from paved trails (similar to the rules at Purgatory Park in Minnetonka) would be a bonus.	8/11/2019 3:05 PM
129	Keep as natural as possible, no trails at all would be ideal	8/10/2019 10:49 AM
130	A dog friendly beach space! We are a very dog friendly community, but we have no place to go swimming with our dogs without being chased off.	8/10/2019 9:50 AM
131	Connect these trails to other existing trails outside of this area	8/10/2019 9:03 AM
132	Work some signature destination into the plan. Either a picturesque bridge structure somewhere or a more natural oriented playground, or a public treehouse observation. Something that makes the park special and unique. I REALLY like the idea of a public observation treehouse in a location. Kids and adults alike will gravitate to it.	8/10/2019 4:33 AM
133	Crushed stone would be fine if it's compacted enough for kids to bike on.	8/10/2019 3:31 AM
134	Parking is currently an issue as there is no where to park by the smaller beach closer to Lake Lucy	8/9/2019 9:10 PM
135	Natural surfaces only. Really. Do not pave. Paving is bad for environment, costly to maintain long-term, and ruins "nature-retreat-within-city" experience.	8/9/2019 6:22 PM
136	We already have a great number of paved trails and it would be nice to feel like we're taking a step away from the city within our own city by maintaining some elements of nature, like crushed stone trails.	8/9/2019 4:22 PM
137	This is such a beautiful area, I hope the changes made will enhance the area even more.	8/9/2019 4:20 PM
138	please practice non-chemical ways of controlling weeds. keep the area natural & promote natural flower species.	8/9/2019 9:27 AM

Lake Ann Input

139	They're are already fairly defined natural trails, I think those routes should be preserved as to limit human impact, plus then there doesn't need to be any big trail building projects.	8/9/2019 7:37 AM
140	Natural style parks/obstacles for kids	8/9/2019 6:43 AM
141	Paved trails are costly to maintain especially in wetland areas.	8/9/2019 6:43 AM
142	A little cleaning with a very small play set along the trail would be a amazing for parents running/walking the the trail to have just a small stop to look forward to	8/9/2019 6:39 AM
143	I would like to see just the crushed stone trails and to preserve as much of the wildland as possible.	8/9/2019 6:36 AM
144	Its too bad this development is going up and destroying the beauty there once was.	8/9/2019 6:34 AM
145	Informational/education plaques where appropriate (for example at Riley Creek, or an impressive example of mature forest)	8/9/2019 6:28 AM
146	Please limit tree removal	8/9/2019 6:28 AM
147	Do not muddy this area with people/ mess that a beach would present. Be honest with the community on the area that they city of Chanhassen has and that it may or may not ever have access to so these packages are not "over sold".	8/9/2019 6:19 AM
148	I strongly feel the park and trail extensions should extend further with a tunnel under Galpin similar to the tunnel under 41 to Lake Minnewashta to create a full trail connection experience. Also, how and when does the remaining Lake Ann parcel north of W 78th between Lake Ann and the Prince development become part of the equation to prevent another Prince catastrophe?	8/9/2019 6:15 AM
149	Unpaved trails are difficult for strollers and loose rock can be 'slippery' for bike tires. I like the option of having both paved and unpaved for everyone to enjoy them as they see fit while also preserving the natural habitat. Thanks for all your hard work on this!	8/9/2019 5:59 AM
150	Have rental of kayaks/canoes/paddle boards available. Model a beach area after lake Riley's update. Make this space usable for all.	8/9/2019 5:50 AM
151	I'm excited at the prospect of being able to bike from our house near the northern boundary of Chanhassen down to Lake Ann entirely on bike trails without crossing any major streets. It'll be a much better connection to the parks for my family and reduce our reliance on our car for getting around to the playgrounds and beaches.	8/9/2019 5:44 AM
152	I am opposed to any paved trails. The number of trails and winter access is less important, but pavement is too unnatural. I also hope the city considers survey results when planning the park, but not to blindly implement the top vote getters. Ultimately we should defer to our Parks specialists to preserve nature first, and allow for human interaction second.	8/9/2019 5:26 AM
153	Please prevent all use of any motorized vehicle, e.g. snowmobiles, ATVs, etc.	8/9/2019 5:22 AM
